

**Meso-level eco-efficiency indicators to assess technologies and their uptake in water use sectors**

Collaborative project, Grant Agreement No: 282882

**Deliverable 6.7**  
**Project Web Site**

April 2013

## DOCUMENT INFORMATION

Project	
Project acronym:	EcoWater
Project full title:	Meso-level eco-efficiency indicators to assess technologies and their uptake in water use sectors
Grant agreement no.:	282882
Funding scheme:	Collaborative Project
Project start date:	01/11/2011
Project duration:	36 months
Call topic:	ENV.2011.3.1.9-2: Development of eco-efficiency meso-level indicators for technology assessment
Project web-site:	<a href="http://environ.chemeng.ntua.gr/ecowater">http://environ.chemeng.ntua.gr/ecowater</a>
Document	
Deliverable number:	6.7
Deliverable title:	Project Web Site
Due date of deliverable:	31/11/2011
Actual submission date:	21/12/2011
Editor(s):	
Author(s):	
Reviewer(s):	
Work Package no.:	6
Work Package title:	Dissemination, communication and science-policy links
Work Package Leader:	NTUA
Dissemination level:	Public
Version:	1
Draft/Final:	Final
No of pages (including cover):	4
Keywords:	EcoWater, website

# 1 Introduction

The EcoWater web site was launched in Month 2 (December 2011) of the Project and is available at: <http://environ.chemeng.ntua.gr/ecowater/>. It is regularly updated to reflect the project's progress and achievements. The web site includes a public part and a private part for communication among project partners

The public section aims to disseminate the project, its progress and the main outputs. It includes a calendar with all the upcoming events and a list with all the publicly available deliverables.

The private area is accessible to all project partners, the External Advisory Board members and the EC Project Officer. It includes:

- General Project Documents, such as the EcoWater Contract, the Consortium Agreement, Reporting Guidelines and templates;
- Material from Project Meetings and Events;
- Working Documents, including draft Deliverables and discussion papers;
- Two libraries including resources useful to the Project, one for General topics and one for Case Study Specific themes, in which users can view and add useful documents;
- A Project discussion forum, to discuss with all partners project issues or post a new topic/question.
